Good Day!

My name is Samuel Hebeisen and I am in search of employment. I recently attended the job fair in Waterloo, ON, and found that most, if not all companies were looking for individuals who are "Forward thinkers" that think "Outside the Box." With this said, please allow myself to present you with a unique way of showcasing my experiences and abilities. I hope I create nothing but a good first impression!
Thank You :-)

Since 2002, i have been self employed with various freelance IT jobs ranging from consulting to full scale front and back end web development. I have been working under the "hebeisen media" name.

The one-on-one interaction directly with clients over the years has been proven to be an invaluable contributor to experience in my professional and personal development. This, combined with the constant pressure to become bigger and better, permits an edge over the vast competition..

Seen on this page are a handful of examples of my work, including menus, websites and other marketing media. Also seen is the testimonial listing of my professional profile on guru.com. When active, I am usually ranked 150 of all graphic designer providers on the website.
